

## Pre-Build Visualisation Service

£295 per room

Step inside your new space, and reveal your home's potential, before you commit any build budget. We bring your extension, home remodelling ideas, or architect drawings to life virtually, with our pre-build 3D visualisation service.

Building or remodelling is one of the biggest investments we can make, and with photo-realistic 3D visuals and a video walk-through of your finished interiors, created to your specific room dimensions, you can make key decisions with confidence before you commit.

You get everything you need to make decisions about your build. Including:

- 4 x 3D photo-realistic images per room for a 360 degree view of your finished interior space
- 2D and 3D floorplans of your new space, including our optimised layout suggestions
- Link to interior video walk-round of your new space

**Cost: £295 per room\***

\*Please note that a multi-zone open plan space is charged as a single room for this service.

## Pre-Build Visualisation Service

£295 per room

And as interior design professionals we don't *only* think about space in terms of square footage, we think multidimensionally about how flow and interior layout can be improved. So, as part of this service, we'll also make suggestions on how to optimise your new floorplan, to make your new space works as hard as it can for you.

This service is delivered remotely. Just [click here](#) to get started by completing our online form to tell us about your plans, send us photos and a floorplan, and you'll receive visualisations of your new space in your inbox within 5 working days.
